

TILE CLEANER

Slightly acidic cleaner for deep cleaning of surfaces and to remove patinas and residues.

TILE CLEANER is a slightly acidic, water-based cleaner for deep cleaning of different surfaces. The special formula allows the product to penetrate inside the pores and texture deep down. In this way, **TILE CLEANER** is able to dissolve and remove the dirt that has built up on the material, even in cases of old, stubborn residues to restore the original appearance of the material.

When used undiluted, **TILE CLEANER** serves to remove surface patinas from incorrect routine maintenance carried out using unsuitable cleaners and it is also active on patinas caused from grout and seals, whether cement or epoxy based. **TILE CLEANER** is recommended for use on all materials that are not acid sensitive.

CHARACTERISTICS AND BENEFITS

- ✓ A versatile product, suitable for use on different types of material
- ✓ Ready to use
- ✓ Top-level cleaning action
- ✓ Dissolves and removes dirt, deep down.
- ✓ Gentle on materials and grout widths
- ✓ Efficiently removes surface patina
- ✓ Effective on grout residues, whether cement or epoxy based.

USES

This product **can be used** on both indoor and outdoor surfaces.

Suitable for use on: Slate, Sandstone, Basaltina - Lava stone, Molten basalt, Glazed ceramics, Clinker, Cotto, Granite, Lapped porcelain stoneware, Polished porcelain stoneware, Natural porcelain stoneware, Textured porcelain stoneware, Reconstituted stone (Eco stone), Porphyry, Quarzite, Terracotta, Tuff

COVERAGE

10/15 m²/l

APPLICATION EQUIPMENT

Cloth, mop, single disc machine

APPLICATION STEPS

Preparing and cleaning the surface

1. Before proceeding to wash the surface, it is advisable to clean away any surface residues, such as dust, debris and coarse dirt, using a broom or a vacuum cleaner.
2. Wait for the surface to be treated to be completely dry.
3. Any adjacent surfaces not being treated with the product must be protected.
4. Apply the product to surfaces with a temperature of between +5 and +40°C

Cleaners

TILE CLEANER - Slightly acidic cleaner for deep cleaning of surfaces and to remove patinas and residues.

Application

Before applying the product to the whole surface, always test a small, unexposed area or unused piece to check its suitability for use.

5. Dilute the product in clean water. Pour 1 part product into 2 or 3 parts water, according to the amount and the stubbornness of residues to be removed. When used to remove surface patina, used the product undiluted.

6. Begin to work the product over the surface, rubbing the surface with the tool of choice.

7. Leave the product to act for 10 - 20 minutes, continuing to wipe over the surface with your tool of choice to boost and aid the cleansing action of the product.

8. After working the product, remove all residues and rinse the whole floor with plenty of water. If the result is only partially achieved, repeat the application process following the same steps and if necessary, slightly increase the concentration of the product in water.

Drying time

9. After carefully removing any residues and rinsing the surface with water, no further action or waiting time is necessary.

Opening to floor traffic

10. After carefully removing any residues and rinsing the surface with water, the floor can be opened to foot traffic.

COMPLEMENTARY CLEANING AND MAINTENANCE PRODUCTS

After treating with TILE CLEANER, keep the surface clean with the most suitable Faber product, such as NEUTRAL CLEANER or FLOOR CLEANER, to be selected according to the characteristics of the surface.

INSTRUCTIONS AND GUIDELINES

- Never apply the product to a wet surface
- Do not apply the product to overly heated surfaces
- Never use on polished floors that are sensitive to acid, such as marble or limestone
- When applying to recently laid or grouted surfaces, wait for the adhesive or grout to cure completely.
- Never use in conjunction with other chemical products.
- Before applying the product to the whole surface, it is advisable to test a small, unexposed area or unused piece to check its suitability for use.

EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

Cleaners

TILE CLEANER - Slightly acidic cleaner for deep cleaning of surfaces and to remove patinas and residues.

PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Transparent liquid
Colour:	Colourless
Odour:	Typical
pH:	1.5 ± 0,5
Specific Gravity at 20°C	1010 ± 10 g/l

STORAGE

Keep the container tightly closed and store in a cool, dry place.

SHELF LIFE

36 months in the original, sealed packaging, stored in a cool, dry place.

ACCIDENTAL SPILLS

Soak up the product with an absorbent material (paper towels, sawdust, vermiculite, etc.) and dispose of it in the most suitable waste container.

PACKAGING

- 1 l bottles - 12 bottles per box
- 5 l cans - 4 cans per box

HAZARD IDENTIFICATION

H314	Causes severe skin burns and eye damage.
H336	May cause drowsiness or dizziness.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P303+P361+P353	IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
P363	Wash contaminated clothing before reuse.
P310	Immediately call a POISON CENTER or doctor/physician.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
